

NBCLS Goals and Objectives

Adopted 09/03/98

Goal:

To expand and improve networking and resource sharing capabilities of members of NBCLS via improved technology and expanded membership.

Objectives:

1. Fully implement the SuperSearch program for linking NBCLS member online systems.
2. Continue to pursue grant funding to expand SuperSearch program and link to other Systems to model the Library of California.
3. Continue to pursue with the California State Library full funding for all CLSA Program components with a top priority of the Communication and Delivery Program both local and statewide.
4. Continue to promote equal partnership with BALIS, SVLS, MOBAC, and PLS to improve service and cut costs tin Region II/Greater Bay Area Library Council (GBALC).
5. Promote NBCLS as a model for cooperation in a multi-type library environment as envisioned by the Library of California.
